

Vineet Soni

Unnao, Uttar Pradesh, India

EDUCATION

Jaypee University Of Engineering And Technology, Guna, Madhya Pradesh
Bachelors of Technology in Computer Science

August 2021 — Present
CGPA 8.8

Adarsh Vidya Mandir, Unnao, Uttar Pradesh
12th

April 2019 — March 2020
87%

Adarsh Vidya Mandir, Unnao, Uttar Pradesh
10th

April 2017 — March 2018
83.4%

TECHNICAL SKILLS

- **Languages:** C, C++, Python, JavaScript, Hypertext Markup Language (HTML), Cascading Style Sheets (CSS)
- **Frameworks/Libraries:** React.js, Node.js, MongoDB, Express, Tailwind CSS
- **Tools/Platforms:** Git, GitHub, VS Code
- **Related Course Work:** Data Structure and Algorithms, DBMS, Operating System, Computer Networks

ACHIEVEMENTS

- **2 Star** at Codechef (Max 1472)
- Achieved 5 star in C++ on Hackerrank
- Solved 126+ problems on GFG and 140+ problems on Leetcode
- **Expert** at Coding Ninjas
- Solved more than 600 problems across platforms

PROJECTS

Bhojan Express - *Food Delivery Platform* — [GitHub](#)

Jan 2024

- Bhojan Express is built on the robust **MERN** stack (**MongoDB**, **Express.js**, **React.js**, **Node.js**) with the power of **Redux**, seamlessly integrating cutting-edge technologies to provide users with a modern and efficient food ordering experience.
- The platform ensures secure and trustworthy user interactions, offers an **interactive shopping cart** powered by Redux for a dynamic shopping experience, and provides a **personalized dashboard** tailored to individual preferences and order history.
- Engineered to adapt to evolving user needs and accommodate future feature expansions, Bhojan Express ensures scalability and future enhancements to keep the platform relevant and up-to-date.

Cryptopod - *Cryptocurrency Dashboard* — [GitHub](#)

Nov 2023

- Cryptopod, powered by the **BERN** stack (**Blockchain**, **Express.js**, **React.js**, **Node.js**), seamlessly integrates blockchain technology into modern web practices. The platform offers key features such as **chart visualization**, **historical data analysis**, **wallet overview**, and a user interface designed to enhance the user experience.
- Utilizing the **BERN** stack, **Truffle**, and **Web3.js** for blockchain interactions, Cryptopod implements robust security measures leveraging blockchain's decentralized nature to ensure secure user interactions.
- Engineered to accommodate future enhancements and expansions, Cryptopod is designed with scalability in mind to keep the platform relevant and adaptable to evolving user needs.

Portfolio Website - *My personal portfolio website* — [GitHub](#) — [Link](#)

Feb 2024

- My personal portfolio website, built using **HTML**, **CSS**, and **JavaScript** is a showcase of my skills, projects, and experiences. It offers visitors an intuitive and visually appealing platform to explore my background and accomplishments in software development.
- Comprehensive representation of **My Skills**, **Experiences**, and **Projects**. A dedicated section showcases my projects, highlighting their features, technologies used, and my contributions.
- Built on **HTML**, **CSS**, and **JavaScript** and is fully responsive.
